ELDALY WORKSPACE

Measure your workspace

Record the room, desktop and chair before you compare listings.

Room or layout

☐ Inches ☐ Centimeters

1. Room and desk

Usable wall length

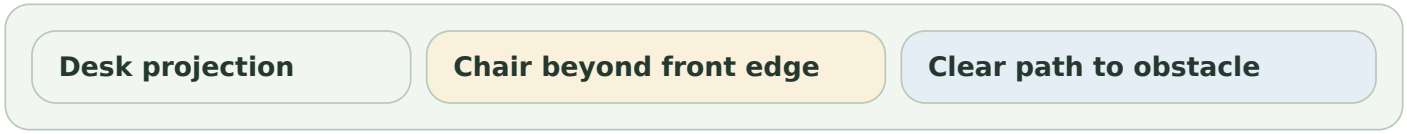
Usable width across the room

Largest desktop width that fits

Desk projection from wall to front edge

Measure to the nearest obstruction opposite the desk. Include baseboard or plug gaps.

2. Chair and walkway



Clear path = usable room width - desk projection - chair extension.

Chair extension when seated

Clear path when seated

Chair extension when pulled back

Clear path when pulled back

Measure the chair extension from the desk front edge to the backmost part of the chair.

3. Test the layout on the floor

☐ Open the nearest door and drawer.

☐ Walk by with the chair pulled back.

☐ Check outlet and cable reach.

☐ Place your largest device on the desk.

What needs to move or change?
